**Where
Every Student
Shines!**

I am new to Catholic East Elementary, having joined the staff in 2009. I taught for one year previously and have 10 years of experience teaching private lessons and leading ensembles. I received my music education degree from UW-Whitewater in 2006.

I live in Franklin, through I grew up in South Milwaukee and Oak Creek. I love participating in any activity. From bowling to board games, I love it all. I also enjoy scrap booking, traveling and watching the Brewers! I also have a cute little dog named MacGyver.

My goal is to show students that music is exciting! Music enriches our everyday lives – just think about all the music you hear throughout the day. I will share my passion of music and the arts with students as they take part in musical activities in a guided setting.

It is a proven fact that music also helps children express themselves, develop their brains, practice teamwork and discipline, and learn about other cultures.
